DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 25 and 26 recites the limitation "third digital audio signal and fourth digital audio signal" in limitation (d). There is insufficient antecedent basis for this limitation in the claims.

Claim Objections

3. Claims 25 and 26 are objected to because of the following informalities: Claims as written are in narrative form, and should be rewritten to clarify the claimed subject matter. It is not clear what the applicant claims to be his invention from the claims as written. Appropriate correction is required.
